

Every student's pathway to a successful career is different.

Goal: beyond is dedicated to understanding, measuring, and actively improving tangible outcomes beyond college completion so that everyone can share more equitability in that success.

We want to inspire learners to access high-quality, affordable education and training in order to pursue lifelong career opportunities that enable economic mobility and have a positive social impact.

## **Goal: beyond is offering students the chance to win a \$2,500 scholarship for school!**

Students can choose one of four prompts and must submit a 500-word essay to enter for their chance to win.

All essays will be judged according to a standard score sheet adopted by the committee. Originality, quality of writing, and relevance to the prompt are among the criteria essays will be judged upon.

*Deadline to apply: November 11th*
